Revision ACL - Surgical Challenge and
Pediatric ACL - Myths and Dilemmas

SMAV/2016

Organised By

Sports Medicine Unit

Department of Orthopaedics

SIR GANGA RAM HOSPITAL

In Association with

Indian Federation of Sports Medicine
&

Indian Arthroscopy Society

ARTHROSCOPY

an integral part of Sports Medicine and Orthopaedics

Dear Friends

I first of all take this opportunity to thank you for all your support that we have received in the IAS meeting, giving us success in presidential election.

We at Sir Ganga Ram Hospital New Delhi, once again invite you to the **12th Sports Medicine & Arthroscopy Workshop** on Sunday, 13th March 2016.

This time the focus is on the common issues with ACL that we all face in our clinic

Revision-ACL Surgical Challenge & Pediatric-ACL Myths and Dilemmas

ACL injuries in pediatric age group brings forth certain dilemmas such as appropriate time of surgery, indicators of potential growth, which we will try to address in the workshop, on the basis of current evidence available in literature. As we all are performing huge number of Primary ACL Reconstructions, we are now seeing a surge in the numbers of revision procedure which poses certain surgical challenge like which graft next, whether to use un-injured limb tissues, single stage or two stage procedure and many such issues will be dealt threadbare and draw a consensus in the present congress by the experts in the above field.

Taking this a stage further, we have taken the initiative to start ACL Registry in order to collect Indian data on this subject. Your contribution in this will be very helpful.

Once again I extend my invitation to you, to join the upcoming workshop. Looking forward to meeting you in March.

WISHING YOU A
HAPPY NEW YEAR 2016

Dr. Prateek K. Gupta, *Organising Chairman*

ARTHROSCOPY
Life is Movement, Movement is Life

PROGRAMME

SCIENTIFIC SESSION

Revision ACL Session

- Single stage or two stage surgery
- Types of grafts available
- Whether to harvest graft from other un-injured limb
- How to deal with big bony defects like tunnel widening
- Fixation options in revision situation
- Rehab after Revision ACL

Pediatric ACL

- How to assess pediatric knee injuries
- Role of conservative treatment in immature skeletal
- When to go in for ACL Reconstruction
- Extra articular/intra articular procedure
- Ideal fixation option
- Is there a role of ACL repair
- Is there a place for mothers graft tissue

LIVE

Surgeries - 2 to 3

PANEL DISCUSSION by Experts

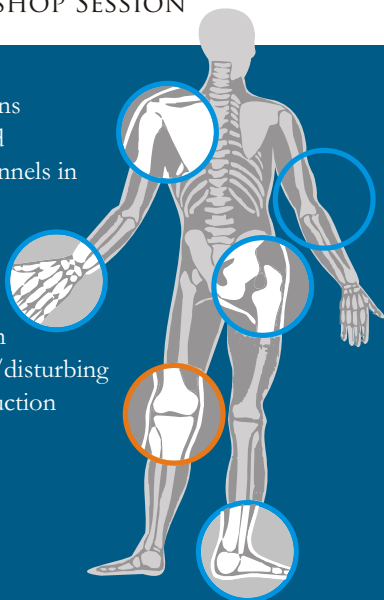

WORKSHOP SESSION

Revision ACL

- Various implant options
- Filling of bony devoid
- How to get correct tunnels in revision situation

Pediatric ACL

- Over the top fixation
- Extra articular fixation
- Minimal intervention/disturbing transphyseal reconstruction

REGISTRATION FORM

Please write in CAPITAL letters only
(Photocopy of this form can also be used for registration)

Name

Designation Qualification
